DETAILED ACTION

Drawings

1. The amendment to Figure 1, or more specifically, the addition of reference number 35 to the drawing is accepted.

Specification

2. The amendment to the specification, or more specifically, the clarification of specified reference numbers 75, 87 and 105 on page 9, lines 22-25 and page 10, lines 1-6 and their relationship to Figures 6, 8 and 11A is accepted.

Reasons For Allowance

3. The following is an examiner's statement of reasons for allowance:
4. The prior art relied upon in the first office action rejection by Ikuma (4,501,186) and LaBarbera (6,441,293) no longer teach all the claimed elements of the independent claims 1, 10, and 23, and no other prior art references could be found that teach said claimed elements, therefore the independent claims and their dependent claims are considered allowable.
5. In terms of claim 1, neither Ikuma or LaBarbera teach three rotatable tuning knobs located on the specified sides of the housing, having an axis of rotation perpendicular to the vertical axis passing through the top and bottom surface of the claimed pickup device.

Art Unit: 2837

6. In terms of claim 10, neither Ikuma nor LaBarbera teach again the three rotatable knobs located on the specified sides of the housing for controlling three different sensors comprised in the pickup unit. They also do not teach the particular clamping device claimed or the sensors which each sense a different element, such as acoustic pressures, mechanical energy or motion of strings.

7. Lastly, in terms of claim 23, neither Ikuma nor LaBarbera teach again the locations of the three tuning knobs, especially the tuning knobs being located beneath and away from the strings and being easily reached by the user while playing the stringed instrument. They also do not teach, as stated above in claim 10, the specified clamping device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
